

UV-C Dosimeter

The Invictus Solar Satellite is a UV Meter that can be paired with the Solar Flare Tower to provide verification and confirmation on the UV delivered by the system. This compact dosimeter is easy to use and provides peace of mind that the Solar Flare has delivered enough UV-C energy to kill and inactivate any bacteria, mold, and virus.

The Solar Satellite Overview:

- Spectral Range: 250nm - 410nm
- Measurement Range: 0 to 5,000 mW/cm²
- 6-digit LCD display
- Display Range: 0 to 999,999 mJ/cm²
- Power: long lasting 3.6V Lithium Battery

Performance	Technical Specifications
