

Compact Air Purification

The Aura Breeze is a compact & versatile air purification and sterilization system designed to be used in smaller spaces. The Breeze can be placed on a desk, small office, or nursing station. The Breeze is engineered to deliver a 5-Log (99.999% Kill Rate) and will rapidly inactivate & destroy viruses and pathogens while drastically reducing VOCs & toxins. A single unit can be used in an office or multiple units can be used for larger areas such as conference rooms or nursing stations.

Aura Breeze Features

- Internal UV-C LEDs to provide maximum sterilization
- 360-degree air circulation
- CADR: 137 m³/hr
- Whisper-quiet operation (< 38 dBm)
- Multiple operating speeds
- Hospital-grade protection:
 - » 5-Log (99.999%) sterilization in 120-minutes
- Multi-stage filtration system:
 - » UV Light to kill viruses and bacteria
 - » HEPA Filter to filter out particles above 0.1 micron
 - » Honeycomb activated carbon filter absorbs and removes odors, second-hand smoke, ammonia, benzene, and formaldehyde.
 - » Cold Catalyst Oxidizer kills microorganisms and provides an additional stage of microbial elimination to remove toxins such as formaldehyde and benzene
