Powerful & Compact Air Purification & Sterilization

The Aura Wind by Invictus is a multi-stage UV air sanitizer designed for spaces up to 1350 sq ft. The Aura Wind delivers hospital-grade sterilization of 99.99% (4-Log) in under 60 minutes, validated at a third-party accredited laboratory, achieving half the time required to meet hospital grade.

Aura Wind Features

- This advanced system has 5-stages of filtration and sanitize the air:
 - A high-efficiency HEPA filter to eliminate microscopic particulates including bacteria
 - Honeycomb-Activated Carbon Filter to remove odors and airborne toxins
 - Germicidal filter to kill bacteria and viruses
 - TiO₂ Cold Catalyst Filter to remove formaldehyde, benzene, xylene, TVOC and other harmful gasses
 - UV Lamp (345nm) to kill bacteria, fungus, and mold
- Direct-flow design provides a constant stream of clean and fresh air for rooms 24/7.
- Easy replacement of the air filters.
- Filters last for a full year before needing to be replaced. This will vary depending on usage.
